ECO SUSTAINABLE CHEMICALS

TENFINIS - AN 2100

Anionic Compact

<i>Chemical composition</i>	<i>Based on Multiple Proprietary finishing system</i>
<i>Appearance</i>	<i>Pale White to Creamish Fluid</i>
<i>Solids</i>	<i>24 to 26%</i>
<i>Charge</i>	<i>Anionic</i>
<i>pH 10%</i>	<i>6.5 – 7.5</i>

Application :

TENFINIS- AN 2100 is a PU-Resin compound product which produces medium soft, elastic finish with good anchoring on the leather.

It is best suitable for nappa, softies and soft articles where covering without loading is needed.

Provides excellent covering of visible defects with good fastness.

Can be applied with spray and also by roller coating.

Will not disturb the softness of the leather.

Usage:

Normally 50 to 150 parts in season combination will result in remarkable upgradation.

The above information on application on leather is given in accordance to the best of our knowledge and our lab applications. As the usage of the product by the consumer is not under our control, we are not liable for any sort of claims or reimbursements. The product is given without any guarantee/warranty in connection to end use.

ECO SUSTAINABLE CHEMICALS

TENFINIS ECS

High Shine Dual Lacquer

Chemical composition	Nitrocellulose with solvent and emulsifiers
Appearance	Clear Oil
Solids	Approx 24 %
Film Character	High gloss, Stretch and clear
Storage	Up to 6 months from date of manufacture

Properties and Application :

- » TENFINIS ECS is a high shine dual lacquer based on Nitrocellulose, soluble in both solvent and water. It produces soft glossy film and does not probate grain harshness.
- » TENFINIS ECS withstands both high temperature and very low temperature and also doesn't cause blushing even at temperatures below zero degree which is the added advantage due to the high grade raw materials used.
- » TENFINIS ECS shall be diluted upto two times of its weight with water or solvent/ thinner on "OIL IN WATER" type depending upon the gloss required. It is not adviceable to use mixed low grade solvent/ thinner as it will affect the nature of the product and its usage and may cause coagulation during dilution.

Note : The product being combination of various raw materials, there are chances of variations in colour and viscosity. The property and application of the product will remain same.

Store within 5°C to 35°C in original pack with tightly closed.

The above information on application on leather is given in accordance to the best of our knowledge and our lab applications. As the usage of the product by the consumer is not under our control, we are not liable for any sort of claims or reimbursements. The product is given without any guarantee/warranty in connection to end use.

Passeig de less Estaselles, 26 08600 - BERGA SPAIN

Tenigram Europa, Avinguda Barcelona, 105, IG-Nova Tecnospai D7, Barcelona / Cataluña / Europa

TENFINIS E91

Aliphatic Polyurethane Dispersion

Chemical composition	Polyurethane
Appearance	Milky Emulsion
Solids	35 ± 1%
Charge	Anionic
pH 10%	7.5 – 8.5%
Film Character	Medium Soft, Flexible and Tough
Shelf Life	6 months from the date of manufacture

Properties & Application :

- » TENFINIS E91 is an all-in-all usage PU which is suitable for almost all types of finishes.
- » Provides Excellent cold crack, abrasion and scuff resistance.
- » Excellent anchorage of pigment.
- » Compatible with variety of acrylics, butadiene and other finishing auxiliaries.
- » Very good dry milling properties.

*Note : The product being combination of various raw materials, there are chances of variations in colour and viscosity. The property and application of the product will remain same.
Store within 5°C to 35°C in original pack with tightly closed.*

The above information on application on leather is given in accordance to the best of our knowledge and our lab applications. As the usage of the product by the consumer is not under our control, we are not liable for any sort of claims or reimbursements.
